Damage & Restoration

Buyers are responsible to ensure that the condition of Lots is to their satisfaction, notwithstanding any mention of condition issues within our descriptions which is made entirely at our discretion for the benefit of buyers. We occasionally refer to damage/ restoration, however, where there is no mention of this in our descriptions this should not be taken to mean that there is none.

Condition Reports

These are made for guidance purposes only, entirely at our discretion, to provide helpful additional information for buyers unable to view the sale. All Lots are sold 'as found'. It should not be assumed that these reports are definitive.

Attributions & Descriptions

These are given as a guide only, and in good faith to assist buyers, however, it is not possible for us to conduct exhaustive scrutiny or research on all Lots. Buyers are given ample opportunity to view and inspect Lots and must therefore satisfy themselves as to the accuracy of any description we apply to a Lot. Inevitably, our descriptions are statements of opinion, in regard to, inter alia, matters of authorship, genuineness, signatures, style, origin, date, age, provenance, condition, value and estimated selling price.

Buyers are strongly recommended to consult a second opinion

prior to making significant purchases for their collections particularly, in the case of paintings and the applied arts where the scope for subjective judgements is greater.

Catalogue Conventions

We recommend that Buyers ask our specialists

for further and better particulars of any Lot if required.

Furniture - example: "George III" - in our opinion of the period, "of George III design" (or "manner", or "style") - In our opinion not of the period, i.e. possibly later or reproduction.

Pictures - example "George Leslie Hunter"

- in our opinion a genuine work by the artist.

"G.L.Hunter - Possibly in the manner or style of the artist. Catalogue attributions are not absolute guarantees of authenticity.

Artists' Resale Rights (Droit De Suite)

A new EEC directive was established in mid February, requiring auctioneers to collect royalties on behalf of living artists each time their work is sold by auctioneers and art market professionals. This means that if you purchase a work by a living artist which sells for over 1,000 Euros or more, you are required to pay a surcharge of 4% of the hammer price to the collecting body, The Design and Artists Copyright Society (DACS). Shapes will detail this DACS payment on your invoice, ARR and pay this across to DACS. If your purchase exceeds 50,000 Euros the levy is reduced to 3%, 1% etc - tapering down as shown below.

The maximum amount due shall not exceed 12,500 Euros, however high the hammer price attained, ie. this is maximum royalty an artist can earn. If you have any further queries please refer to our department or contact the DACS Helpline on 0845 410 3410.

Information on the new legislation and helpful fact sheets are available on the DACS website:
